[redacted] Talked briefly with Guy McConnell, Senate  
Appropriations Committee staff, about our discussions concerning the applicability  
of recent amendments to the Federal Property and Public Buildings Acts which  
would require the Agency to budget for annual payments to GSA for Standard  
Level Use Charges. McConnell said he didn't know much about the subject but  
thought that if this statute was supposed to have uniform applicability he could  
see no valid reason why the Agency should be excluded. He agreed, however,  
it was a proper matter for discussion between the Agency and OMB.
